

Vivek Bogavalli

Full-Stack & AI Systems Architect

Email: vivek@careeros.ai | Phone: +1-555-0199

Professional Summary

Senior engineer specializing in autonomous agent platforms, verifiable claims provenance, and production systems.

Technical Skills

Python, TypeScript, FastAPI, Next.js, PostgreSQL, pgvector, PyMuPDF, Docker

Professional Experience

Antigravity Systems - Senior AI Systems Engineer (2023 - Present)

- Architected autonomous multi-agent pipelines with LangGraph and FastAPI
- Reduced job discovery latency by 45% through pgvector HNSW indexing
- Led deployment of zero-trust verification engine serving 10k daily evaluations

Project Experience

CareerOS Intelligence Platform

- Engineered verifiable claims extraction pipeline with PyMuPDF
- Implemented deterministic policy gates with 100% test coverage

Education

Master of Science in Computer Science

Stanford University (2021)
